Election Results & Runoff 8/10

Last night was both very exciting and a culmination of hard work by so many terrific people. The Albers campaign did superbly, receiving 33.5% of the vote and heading to a runoff election on August 10th.

As we gear up for the second phase of this campaign, I want to take a moment to personally recognize David Belle Isle and his campaign. David ran a positive campaign focusing on the issues. He is a true servant leader, a gentleman and I was honored to participate with him. He and his wife Candice deserve the gratitude of all North Fulton voters for their extraordinary effort. David fought this fight for the right reasons, and the respect I have for him has strengthened these past months. Our shared conservative values and cause is paramount to our state and country. I look forward to expanding our relationship and friendship when I take office.

The Albers campaign will continue our strong message about serving families, taking a business approach to government, and presenting real solutions to important issues. Our cause is not over. Now more than ever, we must show the great state of Georgia that we had enough of "Politics as Usual". It's time for a change and I vow to you I will make it.

I will end on one final thought. As I watched the final numbers come in I reflected on these past months. When I made the decision to run for State Senate I knew I must be prepared for anything. However, no amount of preparation could prepare me for the tremendous feeling I experienced witnessing the outpouring of belief and support from so many. It was a truly humbling experience I will never forget and I thank you for it. I will not let you down.

Your Servant,

John
