

## Lower Taxes & Efficient Government

My opponent continues to attack me, but without results. Voters are tired of this negativity and want answers and results. Let's see what really matters to North Fulton voters.

### Compare the Candidates on How They Will Use Your Tax Dollars

**Brandon Beach**  
*Political Insider*

State government has a "revenue problem, **not a spending problem.** We have cut too much. **We need to raise revenue.**" (Said Brandon Beach at the Chattahoochee Republican Women's Forum)

**Raising revenue = higher taxes.**

**John Albers**  
*Conservative Business Leader*

- **Believes government has a serious SPENDING problem.**
- Will consistently oppose new taxes.
- Will support specific, not across the board spending cuts to force government to live within its means.

Supports higher gas taxes, higher taxes to expand bloated DOT bureaucracy. “The answer to problems is not to throw money at it, but yeah, actually it is”, (Said Brandon Beach at the Tri-Cities Republican Women’s Forum.)

**Brandon Beach intends to raise your taxes.**

- Supports “**zero-based budgeting**” requiring state agencies to justify their entire budget and effectiveness of programs every three years.
- Supports Performance Audits of all state agencies and programs to maximize efficiencies.

## ***THE DIFFERENCE IS CLEAR.***

*Brandon Beach wants to raise your taxes. John Albers will cut spending to stop higher taxes.*

***Vote Tuesday for Conservative Business Leader John Albers To Cut Spending and Lower Taxes.***
