More of the Same From Brandon Beach - Vote Albers

Friends,

Since the beginning of this campaign, I have sought to lead by talking about real issues that impact our quality of life in North Fulton and the future of our state.

Sadly, one of my opponents, Brandon Beach, has chosen a different path. Like he has done on the board of GA Department of Transportation, he has played the same old political games throughout this campaign and engaged in the same old smear tactics, instead of simply doing the job that the citizens expect.

I'm sick and tired of politics as usual and sick and tired of the same old politicians who play games, lie, distort, and smear, rather than lead.

Brandon's campaign has been an embarrassment to the families of North Fulton and the Chamber of Commerce he works for, as he has dragged that great organization down in the mud with him.

Our Senate District has a proud tradition of electing non-politicians to be our voice at the Capitol. Tom Price and Dan Moody served us well. I will continue that tradition and will provide the kind of honest, honorable, and effective conservative leadership that you deserve.

If you're as hungry as I am for leadership that will truly serve your family, I need your vote on Tuesday.

Thank you,

John Albers
