Albers Campaign Launches New Website

John Albers, a Republican candidate for State Senate District 56, launched a new campaign website at www.votealbers.com.

This leading edge site will clearly communicate the values, facts and issues the Albers campaign represents.

Said Albers, "My goal is to find new and better ways to serve each person and each family in our district. Throughout this campaign and beyond, we will leverage technology and communications to interact better with voters and their families. This new website is just the beginning. More exciting announcements and information will be coming soon".
