

**John**  
**Albers**  
STATE SENATE  
votealbers.com

## The Time is Now!

Are you tired of politics as usual? Do you want a State Senator that is not a politician?

I am a business owner and firefighter who is ready to serve you. I will take a business approach to government. We need proven conservative leadership.

Others have been more interested in running smear campaigns than talking about the issues. But don't be too hard on them, what can you expect? They're politicians with an agenda based on winning votes, it's just part of the game. They have one goal in mind...to get elected and then re-elected no matter the cost, a cost you the voters will pay.

I don't play games. I am not a politician. I am going to take the issues head on and fix them. I am going to make individuals in government accountable, most of all myself. This great state of ours needs real leadership and real results that I will give to them. Georgia deserves nothing less.

Let the politicians bicker amongst themselves; I have more important work to do.

Send a clear message this morning that we are all ready for fresh faces, fresh ideas and a new approach. No more politics as usual!

Vote John Albers for State Senate today - your proven conservative leadership choice!

**Business Owner**

**Firefighter**

**Community Leader**
